NOTES

- Pipe stands are fabricated with high-strength, low-alloy steel, and are hot dip galvanized for corrosion protection
- Pipe stands must be installed in accordance with installation instructions to provide the above performance
- Foam-filled tube for pipe stands is optional
- Engineering analysis must be performed to ensure adequacy for project-specific conditions
- Bolts are Grade 8 extreme strength steel
- Adjustable pipe stands provide a maximum of 2" (51 mm) height adjustment, and allowance for roof slopes and for changing pipe sizes
